ABOUT ME

As a dedicated MERN Stack Developer, I specialize in building dynamic, high-performance web applications using MongoDB, Express.js, React.js, and Node.js. I focus on creating scalable, efficient, and user-friendly solutions with clean, maintainable code. Passionate about innovation, I stay updated with the latest technologies and work closely with teams to deliver impactful solutions that meet business goals and exceed user expectations.

EXPERIENCE

- **TORC INFOTECH LTD, KOCHI**

Participated for an internship of two weeks on Cybersecurity and ethical hacking.

- **LUMINAR TECHNOLAB,KAKKANAD**

MERN Stack developing Intern

PROJECTS

- **WEATHER PREDICTION APP**

Predicts real-time weather ,built using React.js

- **CROP RECOMMENDATION FOR PROFITABLE FARMING MACHINE LEARNING**

The project helps farmers in order to yield profitable farming by recognising the type of soil and type of crop which can be grown in it.

- **GREENHOUSE AUTOMATION USING MACHINE TO MACHINE COMMUNICATION AND IOT**

An IoT project which helps farmers in controlling the different parameters in greenhouse and help in effective growing of crops

SKILLS

- Programming in C
- Javascript
- Programming in SQL
- React.js
- HTML
- Bootstrap
- CSS

EDUCATION

- **MANGALAM COLLEGE OF ENGINEERING, ETTUMANOOR** 2020 -2024
BTech Computer Science
- **ST MARY'S HSS , MANARCADU** 2018-2020
Higher Secondary
- **MARIAN SENIOR SECONDARY SCHOOL** 2018
High School

ADDITIONAL INFORMATION

- **LANGUAGES :** English , Malayalam , Hindi
- **ACHIEVEMENTS :** Coordinated ‘CODEVEDA’ , Techfest 2024 held by the Department of Computer Science and Engineering, of Mangalam College of Engineering, Ettumanoor.
